Mr. Cesar De Anda  
Piping Technology and Products, Inc.  
3701 Holmes Road  
Houston, TX 77051

Dear Mr. De Anda,

This year's mission trip to Benton Harbor, Michigan, provided many memorable experiences to the members of the St. Margaret of York Youth Ministry Group. During the weeklong work camp, we had the opportunity to work and play with the young children of Benton Harbor, while discovering their wonderful spirit despite their impoverished lifestyle. We painted the homes of several elderly or handicapped residents and enjoyed their company and warm greetings. And we visited with and enjoyed the company of the retirees in a local shelter while trading stories and card games.

But most importantly, we were blessed with the opportunity to discover our own spirituality in an environment of prayer and sharing. Together with groups from Illinois and Kansas, we were able to take time from our busy summer and find solitude in prayer, as well as sing, dance and enjoy new and old friendships.

For the second year, Piping Technology and Products has generously helped in our mission. We are not only grateful for your financial support, but also in your continuing endorsement of the spirit of youth. We hope you enjoy the slide show presentation, and thanks again for your generosity.

Mr. Durga Agrawal, President  
Piping Technologies  
P.O. Box 34506  
Houston, TX 77234-4506

Dear Sir:

Thank you for a fantastic response during a critical time at our plant. We were required to take the plant down Thanksgiving week on an emergency basis to replace a main steam header. During this downtime, a complete piping support system needed to be replaced on our high pressure boiler feedwater lines.

We called your Mr. Mazen Azizieh at 9 AM on Sunday, November 21 with a need for a complete set of spring hangers to support our feedwater line. He performed the required sizing, arranged both fabrication and assembly and put 4 pallet loads on a truck at 4:30 PM the same day! Over the next two days, he responded to a couple of follow-up issues with a very comparable performance.

I am certain that Mazen is able to greatly exceed our expectations, not only because he is a very customer driven person, but also because he has an equally impressive organization supporting the effort.

Our gratitude extends to all the people who gave the extra effort to help the Weyerhaeuser Valliant Mill be successful. Thanks again for this impressive performance.

Sincerely,

Chuck Gaines, P. E.  
Staff Engineer

Piping Technology Products  
Attn: David Levy  
3701 Holmes Rd  
Houston, Tx. 77051

Dear Mr Levy:

We wish to thank you for your quick reaction to our emergency last week, which saved the day.

Without your help in shipping our parts, we would not have been able to operate our equipment. This could have resulted in having to shut down operations, which would have been costly to our company.

We are extremely grateful for your help.

Yours sincerely,

*Michael A. Bucciarelli, C.P.M.*

# ICBO Evaluation Service, Inc. Approved Fabricator

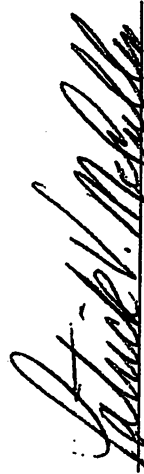

This is to signify that

PIPING TECHNOLOGY & PRODUCTS, INC.  
3701 HOLMES ROAD  
HOUSTON, TEXAS 77051

Approved Fabricator FA-384

has demonstrated compliance with the ICBO Evaluation Service, Inc., requirements for recognition as an approved structural steel fabricator and has been recognized under Section 1701.7 of the 1997 *Uniform Building Code*™ and Section 1704.2.2 of the 2000 *International Building Code*® as an approved fabricator for two years, commencing October 1, 2002.

Fabrication processes and procedures covered by this certificate are conducted in accordance with the fabricator's approved quality control manual. Periodic plant inspections are conducted by Gabert-Abuzalaf AIA & Associates, Inc. (AA-640), at 3701 Holmes Road, Houston, Texas, to monitor the fabricator's quality system and fabrication processes. Recognition is limited to the fabrication processes and procedures only. Recognition does not cover the product, or the design or performance characteristics of the fabricated product.

  
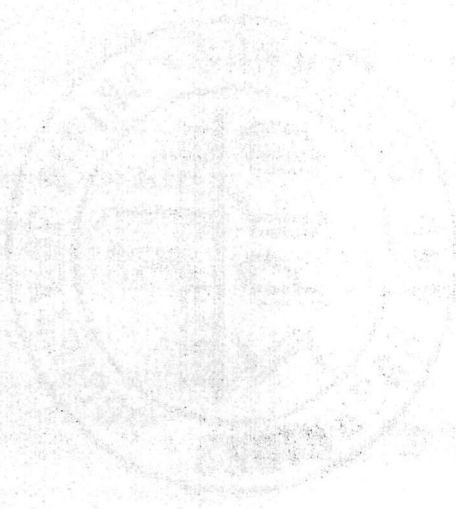

Patrick V. McCullen  
Manager, Field Services Group

  
C. P. Ramani, P.E.  
Vice-President

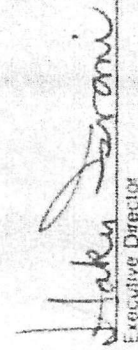

This certificate supersedes any ICBO ES fabricator certificate bearing an earlier date. The certificate becomes invalid upon suspension, cancellation, revocation, or expiration of recognition. See the ICBO ES *Index of Evaluation Reports* (printed version, or on the web at [www.icboes.org](http://www.icboes.org)) for current information, or contact ICBO ES directly at (562) 699-0543. 12/09/2002
